**DIGILORE ANNOUNCES \$2 MILLION SOFTWARE GRANT PROGRAM TO HELP
SCHOOLS MEET ACCREDITATION AND CONTINUOUS IMPROVEMENT
REQUIREMENTS**

CINCINNATI, OH – July 17, 2007– DigiLore®, the leader in providing Learning Lifecycle Management® solutions, today announced that the company is launching a \$2 Million software grant program in support of the U.S. Department of Education, [Spellings](#) Commission Report. According to Margaret Spellings, United States Secretary of Education, “The nation needs a more accountable higher education system that includes a stronger accreditation process with more information about the quality of colleges and universities.” (www.ed.gov)

The DigiLore Software Grant will assist educational institutions with their efforts to bringing continuous improvement and outcomes to the academic community. Eligible institutions include; K-12, colleges, universities, and vocational schools based in the United States. The recipients will receive 5 concurrent user licenses to the DigiLore Learning Lifecycle Management® suite of tools.

“DigiLore is dedicated to improving the quality of education both in the classroom and online to ensure that all students have a quality education. We believe that by providing cutting edge tools to promote continuous improvement and outcomes, educators can deliver a better education to students while putting a process for improvement in place,” said Chuck Pollington Vice President of Sales, DigiLore. “We believe that the accreditation processes placed on these institutions will only become stronger over time and the only way to truly assess effectiveness will be having a complete system that plans, assesses, and validates student learning.”

“We have a proud history of building cutting edge training and education solutions for the US Department of Defense, and this is one way we can give back to the community,” said Abdi Lajevardi, Vice President Business Development, DigiLore, “By waiving the cost of the license fees, this allows any school with a desire to establish a managed and validated continuous improvement process to have access of our software at a very affordable price.”

Terms and Conditions of Grant

DigiLore is waving the normal license costs of the Learning Lifecycle Management®

software. Hosting and maintenance fees still apply. Academic institutions are required to fill out the appropriate web application which can be found at www.digilore.com.

About DigiLore[®], Inc.:
